Epinephrine ordered Yes ☐ No ☐ Special instructions _____

Location of Epinephrine Nurse's office ☐ Main Classroom ☐ With student ☐ Other _____

Expiration Date of Epinephrine _____

Preferred hospital if transported _____

Doctor's Name _____ Contact No. _____

Epinephrine provides a 20 minute response window. After epinephrine, a student may feel dizzy or have an increased heart rate. This is a normal response. Students receiving epinephrine should be transported to the hospital by ambulance. A staff member should accompany the student to the emergency room if the parent, guardian, or emergency contact is not present and adequate supervision for others is present.
