

PROCEDURE FOR POSITIVE PPD REACTOR

1. Go to your family physician and he/she will order a chest x-ray and will complete the “Positive Reactor Status Report”. Be sure to bring your immunization card with documentation of positive PPD skin test. **Chest x-ray must be given on Guam.**
2. Obtain a “School Clearance form” from Public Health in Dededo. (Northern Regional Community Health Center, 520 Santa Monica Avenue, Dededo)
 - Make an appointment by calling 788-4033/4098 or you may walk in during their hours Monday-Friday, 8 am-11:30am.
 - Bring the completed positive reactor status report (TB Evaluation form signed by doctor) and the chest x-ray report with you.
 - If you have already completed INH therapy bring:
 - Documentation certifying completion of preventive therapy
 - Chest x-ray (within 5 years of clearance date)
3. Bring the “School Clearance form” to the school nurse.
 - This form will have a **red seal of Guam stamp** at the bottom.
