

Procedure for Positive PPD Reactors

1. Go to your family physician and he/she will order a chest x-ray and will complete the “Positive Reactor Status Report”. Be sure to bring your immunization card with documentation of positive PPD skin test.
2. Obtain a “school clearance form” from Public Health in Mangilao. (123 Chalan Kareta, Mangilao)
 - a. Make an appointment by calling 735-7120/7131 or you may walk in during their hours of Monday-Thursday, 8 am-5 pm. The TB office is located on the first floor across from the elevators.
 - b. Bring the completed positive reactor status report and the chest x-ray report with you.
 - c. If you have already completed INH therapy bring:
 - i. Documentation certifying completion of preventive therapy
 - ii. Chest x-ray (within 5 years of clearance date)
3. Bring the “school clearance form” to the school nurse.
